Collection 2024

A lush terrarium arrangement featuring a variety of green plants, including large-leafed Monstera and palm-like species, smaller ferns, and mosses. The plants are set on a bed of dark soil, interspersed with several large, light-colored, textured rocks and pieces of weathered driftwood. The entire scene is presented against a plain, light-colored background. Overlaid on the center of the image is the word "arteviası" in a large, white, lowercase, sans-serif font.

[DE]

In Portugal mit Stolz gegründet, ist Artevasi eine Komplettlösung für Gefäße, die sich auf die einzigartige Eigenproduktion von drei Vasen-Kollektionen aus recyceltem Kunststoff, handgefertigter Keramik und Terrakotta konzentriert. Wir wachsen und werden jeden Tag stärker, im Einklang mit unserem Respekt für die Natur und das Erbe. Durch die Kombination unserer handwerklichen Fähigkeiten und der Qualität unserer Rohstoffe garantieren wir vielfältige Produkte von höchster Qualität. Wir haben immer ein offenes Ohr für den Markt und seine Bedürfnisse und stellen uns jeder Herausforderung mit dem Mut, der uns auszeichnet. Von Natur aus unermüdlich und mit Innovation im Blut, haben wir aufregende Neuheiten vorbereitet, um Ihrem Geschäft mit etwa 270 neuen Produkten neues Leben einzuhauen. Unsere Reise hat gerade erst begonnen.

As the company evolved, full of ideas-to-grow, it finally reached the next stage. We are now **ROOTING for NATURE**.

We have always been connected to Nature, both at a business and personal level. This mentality has made us what we are today: a different Artevasi with a distinctive offer and a bold character. We support Nature and *give it new roots* to thrive anywhere, providing the necessary tools for people to plant and spread a greener world.

No room is too small, and no building is too big for Nature not to exist. It is immense, owns itself, and we can only contribute for it to flourish in the most unlikely places by helping it to grow *larger, stronger, better, and closer*.

[PT]

Diariamente a evoluir, cheia de ideias-para-crescer, a Artevasi chegou finalmente à fase seguinte: ROOTING FOR NATURE. Estivemos sempre ligados à Natureza, tanto a nível empresarial como pessoal, pelo que esta mentalidade fez de nós o que somos hoje: uma Artevasi diferente, com uma oferta distinta e um carácter arrojado. Apoiamos a Natureza e damos-lhe novas raízes para prosperar em qualquer lugar, fornecendo as ferramentas necessárias para plantar e espalhar um mundo mais verde. Nenhum espaço é demasiado pequeno, e nenhum edifício é demasiado grande para que a Natureza não exista. Ela é imensa, dona de si própria, e só podemos contribuir para que floresça nos lugares mais improváveis, ajudando-a a crescer mais forte, mais saudável e mais próxima.

[ES]

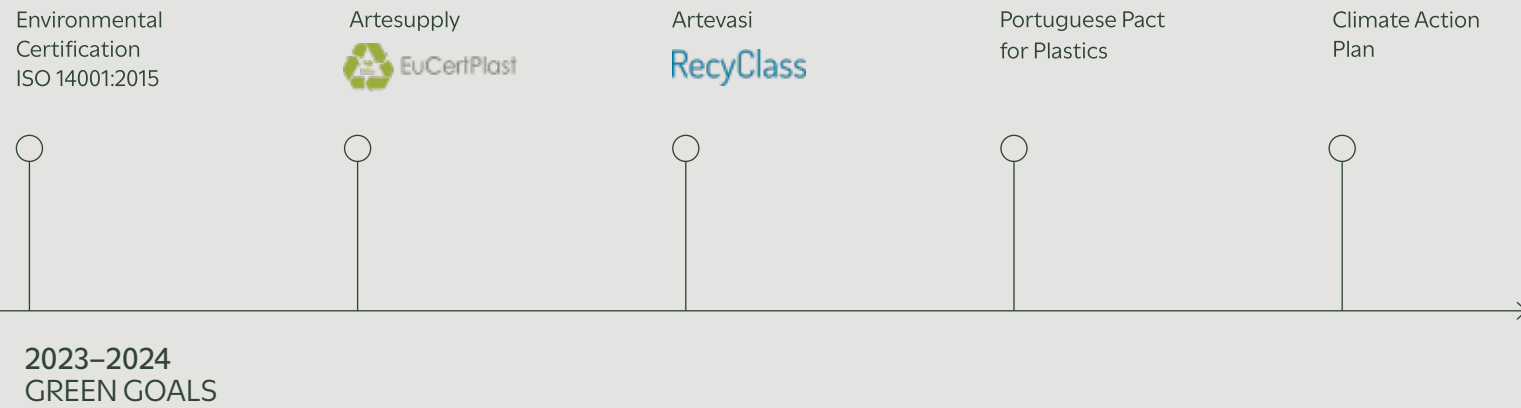

Evolucionando todos los días, llena de ideas-para-crecer, Artevasi finalmente alcanzó la siguiente etapa. Ahora somos: ROOTING FOR NATURE. Siempre hemos estado conectados con la Naturaleza, tanto a nivel empresarial como personal. Esta mentalidad nos ha convertido en lo que somos hoy: una Artevasi diferente, con una oferta distintiva y un carácter audaz. Apoyamos a la Naturaleza y le damos nuevas raíces para que prospere en cualquier lugar, proporcionando las herramientas necesarias para que las personas planten y difundan un mundo más verde. Ningún espacio es demasiado pequeño ni ningún edificio demasiado grande para que la Naturaleza no exista. Es inmensa, dueña de sí misma, y sólo podemos contribuir a que florezca en los lugares más inverosímiles ayudándola a crecer más amplia, más fuerte, mejor y más cerca.

[FR]

Au fur et à mesure que l'entreprise évoluait, pleine de idées-à-développer, elle a finalement atteint l'étape suivante. Nous sommes maintenant ROOTING FOR NATURE. Nous avons toujours été liés à la nature, tant au niveau professionnel que personnel. Cette mentalité a fait de nous ce que nous sommes aujourd'hui : une Artevasi différente, avec une offre distinctive et un caractère audacieux. Nous soutenons la nature et lui donnons de nouvelles racines pour qu'elle puisse prospérer partout, en fournissant les outils nécessaires pour que les personnes plantent et répandent un monde plus vert. Aucune pièce n'est trop petite, aucun bâtiment n'est trop grand pour que la nature n'existe pas. Elle est immense, elle se possède elle-même, et nous ne pouvons que contribuer à son épanouissement dans les endroits les plus improbables en l'aidant à devenir plus grande, plus forte, meilleure et plus proche.

[DE]

Täglich weiterentwickelt, voller Ideen-zum-Wachsen, hat Artevasi endlich die nächste Stufe erreicht: ROOTING FOR NATURE. Wir waren schon immer mit der Natur verbunden, sowohl geschäftlich als auch privat, und diese Mentalität hat uns zu dem gemacht, was wir heute sind: ein anderes Artevasi, mit einem unverwechselbaren Angebot und einem mutigen Charakter. Wir unterstützen die Natur und geben ihr neue Wurzeln, damit sie überall gedeihen kann, indem wir die notwendigen Werkzeuge zur Verfügung stellen, um eine grünere Welt zu pflanzen und zu verbreiten. Kein Raum ist zu klein und kein Gebäude ist zu groß, als dass die Natur nicht existieren könnte. Sie ist unermesslich groß, sie besitzt sich selbst, und wir können nur dazu beitragen, dass sie an den unwahrscheinlichsten Orten gedeiht, und ihr helfen, stärker, gesünder und näher zu wachsen.

We are fearless in the fight for a better tomorrow, so we continue to adjust measures, improve metrics and develop products and services in line with what we stand for.

We aim to be a 100% sustainable company and honour Nature in everything we do, from our internal consumption to the final product on the shelf. For that to happen, respect for *People, Planet* and *Business* is imperative.

PEOPLE Caring for all people related to the business: employees, artisans, customers, stakeholders and communities.

PLANET Having zero impact on the environment through our eco-friendly processes and sustainable products.

BUSINESS Generating revenue in an increasingly responsible way.

Somos destemidos na luta por um amanhã melhor, por isso continuamos a ajustar medidas, a melhorar a métrica e a desenvolver produtos e serviços de acordo com o que defendemos. O nosso objectivo é sermos uma empresa 100% sustentável e honrar a Natureza em tudo o que fazemos, desde o nosso consumo interno até ao produto final na prateleira. Para que isso aconteça, o respeito pelas Pessoas (cuidar de todas as pessoas relacionadas com o negócio: colaboradores, artesãos, clientes, stakeholders e comunidades), Planeta (ter zero impacto no ambiente através dos nossos processos ecológicos e produtos sustentáveis) e Negócio (gerar receita de uma forma cada vez mais responsável) é imperativo.

No tenemos miedo en la lucha por un mañana mejor, así que seguimos ajustando medidas, mejorando métricas y desarrollando productos y servicios en conformidad con lo que defendemos. Pretendemos ser una empresa 100% sostenible y honrar a la Naturaleza en todo lo que hacemos, desde nuestro consumo interno hasta el producto final en la estantería. Para ello, es imprescindible respetar a las Personas (cuidar de todas las personas relacionadas con el negocio: colaboradores, artesanos, clientes, partes interesadas y comunidades), el Planeta (tener un impacto cero en el medio ambiente a través de procesos ecológicos y productos sostenibles) y el Negocio (generar ingresos de forma cada vez más responsable).

Nous n'avons pas peur de lutter pour des lendemains meilleurs et nous continuons donc à ajuster nos mesures, à améliorer nos indicateurs et à développer des produits et des services conformes à nos valeurs. Notre objectif est d'être une entreprise 100% durable et d'honorer la Nature dans tout ce que nous faisons, de notre consommation interne au produit final sur l'étagère. Pour y parvenir, il est impératif de respecter les Personnes (prendre soin de toutes les personnes liées à l'entreprise: employés, artisans, clients, parties prenantes et communautés), la Planète (avoir un impact nul sur l'environnement grâce à nos processus respectueux de l'environnement et à nos produits durables) et les Affaires (générer des revenus d'une manière de plus en plus responsable).

Wir sind unerschrocken im Kampf für eine bessere Zukunft und passen daher weiterhin Maßnahmen an, verbessern Messgrößen und entwickeln Produkte und Dienstleistungen im Einklang mit dem, wofür wir stehen. Unser Ziel ist es, ein zu 100 % nachhaltiges Unternehmen zu sein und die Natur in allem, was wir tun, zu ehren - von unserem internen Verbrauch bis hin zum Endprodukt im Regal. Um dies zu erreichen, ist der Respekt vor den Menschen (Fürsorge für alle Menschen, die mit dem Unternehmen zu tun haben: Mitarbeiter, Handwerker, Kunden, Stakeholder und Gemeinschaften), dem Planeten (keine Auswirkungen auf die Umwelt durch unsere umweltfreundlichen Prozesse und nachhaltigen Produkte) und dem Geschäft (Erzielung von Einnahmen auf zunehmend verantwortungsvolle Weise) unerlässlich.

Plastic Collection

Plastic is where it all began. Its durability, versatility and reusability allow us to explore different sizes, shapes, colours, and finishes. In addition, we incorporate the RE cycle into our daily cycle as the raw material used in our plastic collection comes from waste, and 100% of our internal waste is reused. We design all our plastic products to last a lifetime. This way, we do what we do best, creating reusable and recyclable pots with a reduced environmental impact.

This year, we chose *colour as a statement* in line with the latest market trends. Our Design and Development team researched, studied and added the trendiest colours to our pot collection. With *125 new references*, we guarantee a range of solutions that offer more competitiveness to the point of sale and, consequently, to your business. From decorative pots to pots suitable for cultivation, our recycled plastic collection also includes smart watering and space optimisation solutions so that no context or circumstance can prevent Nature from entering your customers' lives.

[PT]

O plástico foi o ponto de partida. A sua durabilidade, versatilidade e reutilizabilidade permitem-nos explorar diferentes tamanhos, formas, cores e acabamentos. Além disso, incorporamos o ciclo RE no nosso ciclo diário, uma vez que a matéria-prima utilizada na nossa recolha de plástico provém de resíduos, e 100% dos nossos resíduos internos são reutilizados. Concebemos todos os nossos produtos de plástico para durar uma vida. Desta forma, fazemos o que sabemos fazer melhor, produzindo vasos reutilizáveis e recicláveis com um impacto ambiental reduzido. Este ano, escolhemos as cores como uma afirmação em linha com as últimas tendências do mercado. A nossa equipa de Design e Desenvolvimento dedicou-se a pesquisar, estudar e acrescentar as cores mais trendy à nossa coleção de vasos. Com 125 novas referências, garantimos uma panóplia de soluções que oferecem mais competitividade ao ponto de venda e, por consequência, ao seu negócio. Desde vasos decorativos a vasos apropriados para cultivo, a nossa coleção de plástico reciclado conta igualmente com soluções inteligentes de rega e de otimização de espaço, para que nenhum contexto ou circunstância impeçam a Natureza de entrar na vida dos seus clientes.

C'est avec le plastique que tout a commencé. Sa durabilité, sa polyvalence et sa réutilisation nous permettent d'explorer différentes tailles, formes, couleurs et finitions. En outre, nous intégrons le cycle des énergies renouvelables dans notre cycle quotidien, puisque la matière première utilisée pour notre collection de plastique provient de déchets et que 100 % de nos déchets internes sont réutilisés. Nous concevons tous nos produits en plastique pour qu'ils durent toute une vie. Ainsi, nous voulons faire ce que nous faisons le mieux : créer des pots réutilisables et recyclables avec un impact réduit sur l'environnement. Cette année, nous avons choisi la couleur comme moyen d'expression, en accord avec les dernières tendances du marché. Notre équipe de Design et de Développement a recherché, étudié et ajouté les couleurs les plus tendances à notre collection de pots. Avec 125 nouvelles références, nous garantissons une gamme de solutions qui offrent plus de compétitivité au point de vente et, par conséquent, à votre entreprise. Des pots décoratifs aux pots de culture, notre collection en plastique recyclé comprend également des solutions intelligentes d'arrosage et d'optimisation de l'espace pour qu'aucun contexte ou circonstance ne puisse empêcher la Nature d'entrer dans la vie de vos clients.

Kunststoff war der Ausgangspunkt. Seine Langlebigkeit, Vielseitigkeit und Wiederverwendbarkeit ermöglichen es uns, verschiedene Größen, Formen, Farben und Oberflächen zu erforschen. Darüber hinaus integrieren wir den RE-Zyklus in unseren täglichen Kreislauf, da das für unser Kunststoffsortiment verwendete Rohmaterial aus Abfällen stammt und 100 % unserer internen Abfälle wiederverwendet werden. Wir konzipieren alle unsere Kunststoffprodukte so, dass sie ein Leben lang halten. Auf diese Weise tun wir das, was wir am besten können, nämlich wiederverwendbare und wiederverwertbare Pflanzgefäße mit geringeren Umweltauswirkungen herstellen. In diesem Jahr haben wir uns im Einklang mit den neuesten Markttrends für Farbe als Statement entschieden. Unser Design- und Entwicklungsteam hat sich der Suche nach den trendigsten Farben gewidmet, um sie in unsere Pflanzgefäße-Kollektion aufzunehmen. Mit 125 neuen Referenzen garantieren wir eine Reihe von Lösungen, die die Wettbewerbsfähigkeit der Verkaufsstelle und damit auch Ihres Unternehmens steigern. Von dekorativen Töpfen bis hin zu Anzuchttopfen umfasst unsere Kollektion aus recyceltem Kunststoff auch intelligente Lösungen für die Bewässerung und die Optimierung des Platzes, so dass kein Kontext und keine Umstände verhindern können, dass die Natur in das Leben Ihrer Kunden eintritt.
